## ITALIAN WHITES

Italy's white wine offerings range from super dry, savoury styles from Tuscany and Le Marche, the aromatically perfumed whites, Pinot Grigios from Venezia to the super ripe wines of Sicily and Puglia.

Elegantly balanced with acid and body, these wines typically display the mineral characters of the Apennine Mountains which run through Italy.

## GRENACHE AND RHONE STYLES

### Old World:

France

Spain

Italy

### New World:

United States

Australia

Can be a lighter style of wine with mid tannins and mid alcohol to dark, syrupy intensely fruit driven layers.  
Strawberry, black cherry, and raspberry flavours followed by hints of tobacco and cinnamon.

## RHONE BLENDS

With the ability to use up to 19 different grape varieties in the Cote du Rhone Blends and up to 13 varieties in Chateaufort du Pape wines, it's hard to go wrong with these blends.

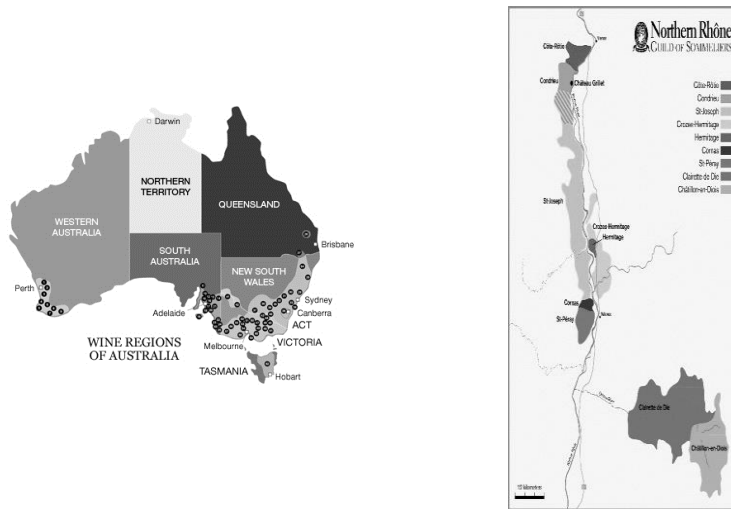

A common acronym for one of these blends is GSM.  
This stands for Grenache, Syrah, Mouvedre (Mataro in Australia)  
This means the wine will be Grenache dominant, then followed by the use of Syrah and Mouvedre.

By using the blend of the three varieties you create a balance of tannins, acid & flavour.

## SYRAH, SHIRAZ & BLENDS

Originally from France, Australia has taken the grape Syrah  
and made it our own, calling it Shiraz.

New World VS Old World wine comparison, it's great to have the two  
side by side.

Experience the different styles of wine created with one grape.  
Old World Syrah's showing a higher acid level and earthy flavours  
while New World Shiraz's expressing fruit forward & spice.

Northern Rhone, France

VS

Barossa Valley, South Australia

### BLENDS

With Syrah/Shiraz being such a heavy, tannic wine, some  
winemakers choose to use white wine to soften the wine  
and add light fruit flavours. The most commonly  
used grapes for this blending are  
Viognier, Marsanne & Roussane

## CABERNET SAUVIGNON & BORDEAUX STYLES

Genetically crossed between Cabernet Franc and Sauvignon Blanc,  
this variety tends to thrive in warm, dry environments  
as it is a late ripening grape.

Wines that are from the Left Bank of Bordeaux  
are Cabernet Sauvignon based wines, whereas  
wines that are from the Right Bank of Bordeaux  
are Merlot based wines.

Cabernet Sauvignon is a grape that has been adapted  
from one region to many throughout the world.

Old World:

France

Italy

New World:

Australia

United States

Argentina

South Africa

Flavours of black cherry, blackcurrant and blackberry  
and green bell pepper, many also have notes of  
black pepper, tobacco and violet.

Many of these wines are oaked which will show  
flavours of spice and vanilla.
